Readability Note

Your child has learned at least 80% of the words in this story. Reading specialists and teachers recommend that children read text that is not too difficult yet is challenging enough to expand their reading skills. A book is easily readable when a child is able to read 90 to 100% of the words in a book without help. At 80% readability, a child can still easily read most of the text in a book; however, he is also challenged to decode words he hasn't encountered before.
