

The Red-Tailed Hawk

Learn to Read

Finish the story with the missing **au** and **aw** words. Then color the pictures for fun!

The red-tailed h__k is a big bird. It eats meat—mice, rabbits, snakes, and birds. When you see a h__k l__nch off a perch, look at his tail. If you see red, that is a red-tailed h__k.

When a h__k wants to eat, he sits and waits, looking. He can see much better than we can. From very far __ay, he can see a mouse cr__l in the grass. He can see a snake on the l__n.
